

Service makes the difference

Our services have only one target:
to optimize your energy output .

Field Service

Our worldwide network of experienced service technicians offer expert on-site support.

Spare Parts

Local availability ensures quick delivery. Our OEM quality minimizes your risk of defaults.

Repair

We offer overhauling and remanufacturing to original specification levels by providing routine replacement of bearings and full load testing on the most modern equipment to the highest quality standards.

Gearbox Exchange Pool

Gearboxes are readily available for you at short notice. Even in critical situations we will minimize your downtime-cost.

Training

Our training program includes (gearbox) inspection, failure assessment, basic repair and maintenance procedures, gearbox alignment as well as condition monitoring.

Inspections and Maintenance

From a single visual inspection to maintenance agreements, including endoscopy and sound conducted measurement, we offer service packages tailored to your individual requirements.

Gearbox Alignment

The latest alignment technology prevents damage to the gearbox bearings, generator bearings and clutches.

Condition Monitoring

Through early fault detection we are able to increase the efficiency of your system.

Service Wind Energy

Always one step ahead -
keeping everything
running smoothly.

We have already supplied gearboxes for wind turbines since the mid 1980s (when we were known as Lohmann and Stolterfoht or 'L&S').

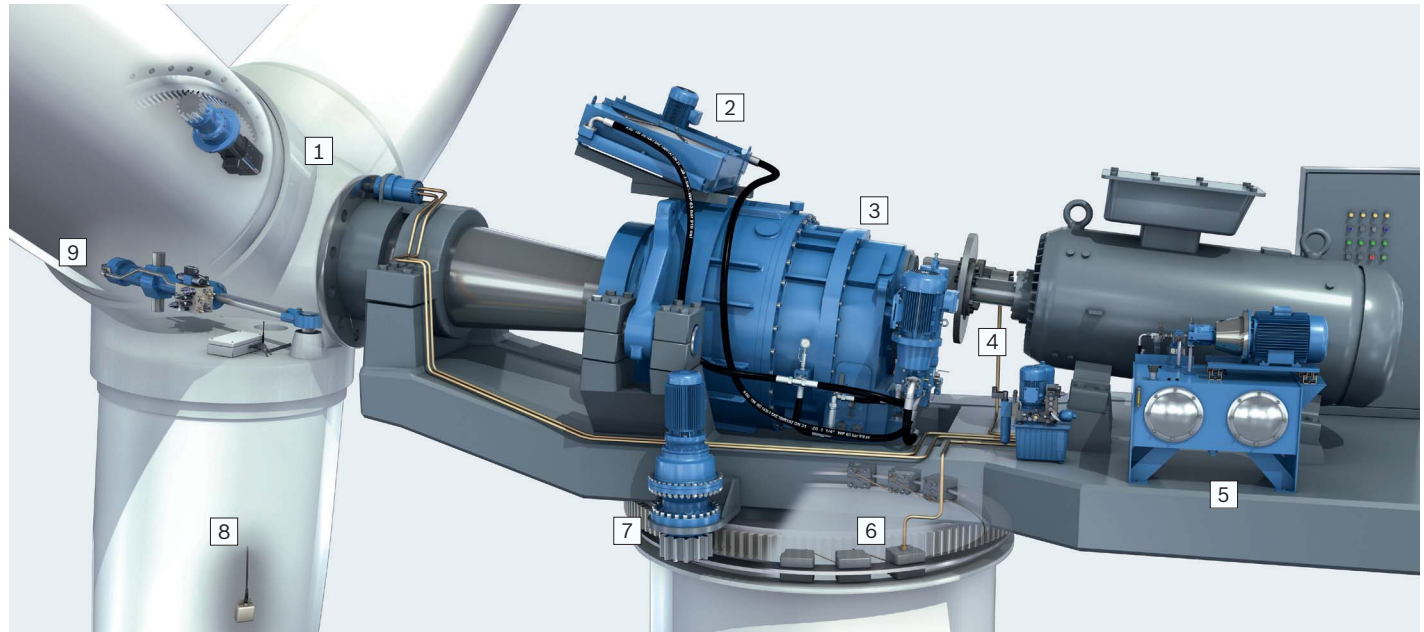

Today as Bosch Rexroth, we are a global partner in the wind energy business. Our focus is gearbox technology, hydraulics and after-sales support.

For the entire life cycle of the wind turbine, we are your reliable partner.

Our Services

- Field Service
- Spare Parts
- Repair
- Gearbox Exchange Pool
- Training
- Inspections and Maintenance
- Gearbox Alignment
- Condition Monitoring

Reliable Products - Reliable Service

1 | Electromechanical Pitch Drives

2 | Lubrication System, Oil Cooler and Oil Filter

3 | Main Gearboxes

4 | Output Shaft Brake

5 | Hydraulic Power Units

6 | Yaw Brake Systems

7 | Yaw Drives

8 | Rotor Blade Condition Monitoring Systems

9 | Hydraulic Pitch Drives

You will find our wide product range in the following:

E.N.O. Energy (E.N.O. 82)
Gamesa (G47, G52, G58, G80, G87)
Nordex (N80, N90)

Alstom Ecotecnia (ECO 70 / 80)
GE Energy (GE 1.5, GE 2.X)
REpower (MM82/92)

Enercon (E30, E40, E58, E66, E112)
Kenersys (K100)
Vestas (V47, V52, V66, V80, V90, V112)
